Bird List for Las Cruces Flood Control Dam (including arroyos west of Roadrunner Parkway & city parks adjacent to dam's flood pool)

The City of Las Cruces owns and manages the dam and its more than 750-acre flood pool. Habitats include desert scrub, as well as riparian areas: arroyos, seasonal ponds (which can hold water for months after heavy summer rains), dense Johnson grass swales, cottonwood stands, and a permanent wetland supplied with treated sewage effluent.

Motorized vehicles are prohibited. Bicycle and pedestrian access points for a system of dirt and improved trails are shown on the map on the back of this list. To report unauthorized motor vehicles, call the City's non-emergency dispatch number, 575-526-0795.

Key to Seasons:

F = Fall = Sep.-Nov.

W = Winter = Dec.-Feb.

Sp = Spring = Mar.-May

Su = Summer = June-Aug.

Abundance Codes:

C = Common (seen on majority of visits)

O = Occasional (occurs regularly, but seen on minority of visits)

I = Irregular (may not be reported every year)

Acc = Accidental (outside of normal range or season)

This list includes incidental observations made from 1995-2016 as well as data from eBird.org. Special thanks to Nancy Stotz, David Griffin, and Sue Hill.
